### Pest Management

Integrated pest management is a method for managing damage by pests with the least possible hazard to people, property, and the environment. This method of managing pests includes the careful use of pesticides such as insecticides, herbicides, rodenticides, and fungicides. Integrated pest management also requires that parents or guardians have a right to prior written notice of pesticide applications. I have read and understand the Just For Kids Preschool integrated pest management (2019-20). Just For Kids will issue a written notice prior to all applications performed on the property at 2575 Plainfield/Naperville Rd., Naperville, IL 60564.
